MEMORANDUM FOR: Executive Officer to the
Deputy Director for Support

SUBJECT : Nixon Library

1. In response to your request for possible contribution to the Nixon Library, we would suggest that certain Histories prepared by the Office of Logistics covering support operations in Southeast Asia would be appropriate. At the present time, the following, which we would include, are essentially completed:

25X1

These Histories could be updated and thus serve the twofold purpose of including the years of the Nixon Administration and having a current history for our files.

2. If deemed appropriate, we could provide statistical type information on materiel, dollars, and personnel support furnished on a worldwide basis and, in particular, to Southeast Asia. While these are not presently in suitable form, they could be extracted from our files and presented in meaningful fashion.

3. If you agree with this approach, we will begin to update the above-noted Histories and collect the statistical data which could be incorporated into an appropriate form for inclusion in the Library.

25X1

Acting Director of Logistics
